

6" x 9" Cobblestone paver lights

Accent your paver patio, driveway, walkways and retaining walls with built-in lights by Kerr Lighting. Equipped with bulbs that operate on a low-voltage outdoor electrical system, these durable lights will bring a warm glow to your outdoor spaces and provide a measure of safety as well.

Kerr paver lights fit into the spaces of 6" x 6" and 6" x 9" Willow Creek Cobblestone pavers or a 4" x 8" Willow Creek Brickstone paver and will withstand foot and vehicle traffic. Kerr wall lights fit into the space of a 6" x 8" VERSA-LOK Cobble unit. All lights are made of high-impact plastic and are resistant to the elements.

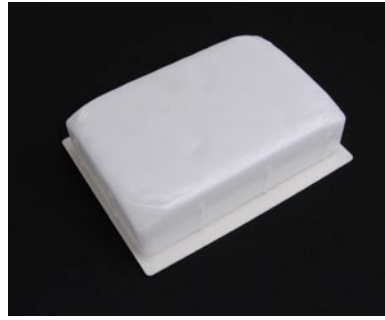

Brickstone paver and 6" x 8" wall lights

4" x 8" BRICKSTONE

6" x 6" COBBLESTONE

6" x 9" COBBLESTONE

6" x 8" WALL LIGHT

TRANSFORMER AND CABLE SELECTION GUIDE

Total Nominal Wattage of Transformer	150 Watt, 16-Gauge Cable		250 Watt, 12-Gauge Cable	
	MAX. WATTS	MAX. LENGTH	MAX. WATTS	MAX. LENGTH
88 Watts	88	100	88	150
200 Watts	150	100	196	150
300 Watts	150	100	250	200

Note: All lights are supplied with bulb(s) and connectors. Number of lights multiplied by wattage of bulb = total wattage of transformer required. Use the Selection Guide to determine the maximum length of cable that can be used with the required transformer.
