

# COBBLESTONE 12 x 12

Willow Creek's Cobblestone family of interlocking concrete pavers now includes a 12" x 12" unit. The new paver joins the family of 6-cm-thick pavers and meets the highest performance standards and aesthetic demands of landscape architects, designers, contractors and do-it-yourselfers. This new paver introduces new options for creative use of color and new options for borders and insets. In combination with other Cobblestone pavers it expands the range of laying patterns. It can be used alone to create stunning, contemporary, large-slab surfaces. The new 12" x 12" paver is available in a weathered texture by special order. A free Willow Creek Paving Stones Project Calculator to calculate materials and accessories for any size project is available online at [www.willowcreekpavingstones.com/paver-project-calculator](http://www.willowcreekpavingstones.com/paver-project-calculator).
