

UNDERCAP LED LANDSCAPE LIGHTING

Enlighten your outdoor living space with landscape lights from Willow Creek. Undercap lights will add a warm glow and a measure of safety to any outdoor space. A light-sensing photocell turns the lights on at dusk and off at dawn, or the adjustable timer can be set for 4-, 6- or 8-hour durations. Each light consumes only 1.4 watts and emits a warm 3250K glow. The wide dispersion angle distributes light evenly over a broad area. These lights can be powered from either a DC or AC source.

2-ft lengths available. Ask about custom lengths.

LED LIGHTING KIT

- Four low-voltage LED undercap lights in a 5-inch wide aluminum channel, available in brown and silver with galvanized steel mounting brackets
- 35 watt low-voltage power supply with heavy-duty outdoor housing
- Power supply has a photo eye, dusk-to-dawn and dusk to 2-, 4- or 6-hour timer
- 50 feet of 16-gauge outdoor electrical wire
- 10 in-ground wire connectors
- Additional lights can be purchased individually or in cases of 10
- Power supply included in kit allows for a total of 21 additional undercap lights
