

Capture this venerable ambience with Willow Creek Cobblestone™ pavers for a distinctive paved surface that will age as gracefully as it performs. Cobblestone pavers consist of six unique shapes that can be artfully woven into an endless array of patterns. Whether in a synchronized or random arrangement, Cobblestone pavers ideally complement retaining walls and other landscaping features. At 6cm thick, Cobblestone's six shapes commonly are mixed, but are equally attractive when used individually. Cobblestone can be paired with Circlestone to incorporate a circular pattern in a Cobblestone paver surface.

# COBBLESTONE

**NOTE:** To avoid scuffing the surface of the pavers, it is recommended that compactors be fitted with protective pads. See Willow Creek Color Guide for current color availability. Colors shown might not match product colors exactly. Photographic and printing processes are not capable of reproducing all product colors. Due to manufacturing processes, color might also vary between production runs. Please visit your landscaping products supplier to view actual product samples.
