

# LEDGESTONE FIRE RING KIT

Enjoy informal cookouts with the fire ring's detachable swing-away metal grate.

Willow Creek's LedgeStone Fire Ring Kit makes it easy to enjoy the warmth and comfort of a cozy backyard fire. The kit contains a heavy-gauge steel fire ring, with optional steel grate, and 54 LedgeStone Tapered wall units. These high-quality units capture the look of natural stone, and because they're made of concrete, they will withstand the harshest elements for years to come. The metal fire ring is 9 inches tall and measures 30 inches in diameter. The kit assembles quickly, so you can enjoy backyard fires in no time.

Fire Ring is also available without grate.

- 46" Outside Diameter
- 30" Metal Ring Inner Diameter
- 54 LedgeStone Tapered Wall Units
- 18 LedgeStone Tapered Wall Units per additional course
