

BIRCH, IVORY & LATTE

**NEW
COLORS!**

•Slatestone Smooth Birch

•Brickstone Ivory

Willow Creek Paving Stones' newest colors include Latte, Birch and Ivory in our Select Series pavers and Ivory in our Classic Series.

The new Birch color harbors rich, contrasting tones for a contemporary look that complements both our Classic and Select Series pavers as well as many architectural, hardscape and landscape features. The new Ivory color gives a fresh, crisp feel to paver fields, borders and other paving stone designs for both our Classic and Select Series pavers.

Slatestone Smooth and Slatestone Grande Smooth pavers are available in 6cm and 7cm thicknesses in the new Latte and Birch colors as well as Ash, Bleu and Shor. Dekrastone is available in 7cm thickness in the new Latte and Birch colors as well as Ash, Bleu, Creme, Mocha, Shor and Black. Latte and Birch are also available by special order for Eurostone 7cm pavers.

Ivory is available for Classic Series Cobblestone 6 x 9 and $\frac{3}{4}$ Stone pavers in 6cm and Brickstone 6cm and Select Series' Dekrastone 7cm. Ivory also is available by special order for Cobblestone 6 x 9 and $\frac{3}{4}$ Stone Weathered and Brickstone Weathered 6cm.

**NEW
COLORS!**

A close-up photograph of a paved surface made of rectangular paving stones in various shades of tan, beige, and light brown. The stones are arranged in a staggered pattern with light-colored mortar joints. In the background, a green lawn and a yellow trash can are visible.

•**Slatestone Smooth Latte**

Willow Creek Paving Stones' newest colors include Latte, Birch and Ivory in our Select Series and Ivory in our Classic Series.

Latte is an earthy brew with natural color striation that complements existing hardscapes and natural stone or looks great on its own. Both the Birch and Latte colors are suited beautifully for our Select Series pavers, including the large-format appeal and contemporary look of Slatestone Smooth and Slatestone Grande Smooth as well as the streamlined look and versatile patterns of Dekrastone.

Willow Creek's **Classic Series™** pavers are unmatched in durability and beauty, crafted of high-strength concrete with the tones and textures of the earth. Classic Series pavers perform exceptionally in the Midwest's extreme seasonal weather cycles. Most Classic Series pavers come in two distinctive textures, Traditional™ for a clean, contemporary look and Weathered™ for a rustic elegance. These pavers meet the most demanding challenges of landscape and hardscape design.

Willow Creek's **Select Series™** pavers have all the advantages of our original Classic Series pavers, plus additional premium features. Select Series pavers are made with our exclusive **Infusion™ technology**, which provides paver protection from the inside out. This gives the Select Series enhanced color longevity, heightened durability and additional stain-resistant properties, perfect for high-traffic environments. Select Series pavers are ideal for both standard and permeable applications.
