

Conveying an elegance that is sure to impress, Willow Creek's Slatestone™ and Slatestone Grande™ 6cm and 7cm pavers are as durable as they are beautiful. Slatestone and Slatestone Grande comprise five shapes that work together to make installation a snap. With simple repeating patterns, Slatestone and Slatestone Grande deliver a random, natural appearance that is perfect for patios, walkways and pool decks as well as vehicular applications (7cm thick) such as driveways.

Slatestone and Slatestone Grande pavers are manufactured using Willow Creek's proprietary Infusion™ technology, which enhances the paver's performance and appearance. Specifically, the Infusion process

INFUSION TECHNOLOGY™

- Enhances paver color and extends the life of the paver's bright, vibrant "new paver" look.
- Improves stain resistance for everyday use.
- Reduces absorption, making the paver more durable. Because it extends a paver's longevity, municipalities are specifying the Infusion process.

The large surface area makes it easy to install for professionals and homeowners alike. Combine Slatestone Grande (9 x 18 and 14 x 18) with Slatestone (5 x 9, 9 x 9 and 9 x 14) pavers for even more pattern options. Slatestone and Slatestone Grande pavers are ideal for both standard and permeable applications.
