

Willow Creek's Slatestone Grande™ pavers and slabs add a contemporary look to your hardscaping projects. Available in 6cm and 7cm thicknesses, Slatestone Grande pavers are available in two sizes, 9 x 18 and 14 x 18. Durable and beautiful, Slatestone Grande pavers are engineered to meet the highest performance standards and aesthetic demands of landscape architects, designers and contractors.

Slatestone Grande pavers are manufactured using Willow Creek's proprietary Infusion™ technology, which enhances the paver's performance and appearance. Specifically, the Infusion process

INFUSION TECHNOLOGY™

- Enhances paver color and extends the life of the paver's bright, vibrant "new paver" look.
- Improves stain resistance for everyday use.
- Reduces absorption, making the paver more durable. Because it extends a paver's longevity, municipalities are specifying the Infusion process.

The large surface area makes it easy to install for professionals and homeowners alike. Combine Slatestone Grande with Slatestone™ pavers (5 x 9, 9 x 9 and 9 x 14) for even more pattern options. Slatestone Grande pavers are ideal for both standard and permeable applications.

SLATESTONE GRANDE

Select Series

Slatestone Grande pavers (9 x 18 and 14 x 18) can be combined to create a variety of patterns with Willow Creek's Slatestone pavers (5 x 9, 9 x 9 and 9 x 14). **NOTE:** To avoid scuffing the textured surface of the pavers, it is recommended that compactors be fitted with protective pads. Colors shown might not match product colors exactly. Photographic and printing processes are not capable of reproducing all product colors. Due to manufacturing processes, color might also vary between production runs. Please visit your landscaping products supplier to view actual product samples.
