

# SLATESTONE SMOOTH

Willow Creek's Slatestone™ Smooth pavers feature the warmth of natural slate. Conveying an elegance that is sure to impress, Slatestone Smooth pavers are as durable as they are beautiful. Available in 6cm and 7cm thicknesses, Slatestone Smooth comprises three shapes that work together to make installation a snap.

Slatestone Smooth pavers are manufactured using Willow Creek's proprietary Infusion™ technology, which enhances the paver's performance and appearance. Specifically, the Infusion process

- Enhances paver color and extends the life of the paver's bright, vibrant "new paver" look.
- Improves stain resistance for everyday use.
- Reduces absorption, making the paver more durable. Because it extends a paver's longevity, municipalities are specifying the Infusion process.

With a simple, repeating pattern, you can create patios, driveways and walkways that have a random, natural appearance. Combine Slatestone Smooth with larger Slatestone Grande™ Smooth pavers (9 x 18 and 14 x 18) for even more pattern options. Slatestone Smooth pavers are ideal for both standard and permeable applications.

Slatestone Smooth pavers (5 x 9, 9 x 9 and 9 x 14) are sold in random bundles only. The 2:2:1 paver ratio lets you create a random appearance with a repeating 5-paver group, simplifying installation. **NOTE:** To avoid scuffing the smooth surface of the pavers, it is recommended that compactors be fitted with protective pads. Colors shown might not match product colors exactly. Photographic and printing processes are not capable of reproducing all product colors. Due to manufacturing processes, color might also vary between production runs. Please visit your landscaping products supplier to view actual product samples.
